State #:		Fed #:		Co: JACKSON	Project Type: Safety	
Phase	Year of Obligation	Type	Source	Cost(\$1,000's)	Description:	The City of Kansas City, Missouri, is awarded \$10 million in funding to implement safety countermeasures on Prospect Avenue, which is an important north/south connector for Kansas City's Black communities. Prospect Avenue is on Kansas City's high-injury network and is one of the most dangerous corridors in the City for pedestrians, with reckless driving and speeding as key causal factors. The impact area of this project includes more public parks than almost any corridor in Kansas City, including Sanford Brown Park, Oak Park, Ivanhoe Park, and Brush Creek trails, and expands safe and accessible routes in a once-thriving commercial corridor. To address these issues, this project implements Proven Safety Countermeasures sidewalk and bus stop improvements, pedestrian refuge islands, curb extensions, retroreflective backplates, and pedestrian and street-level lighting, concentrating safety measures on the most dangerous 1.86-mile section of Prospect Avenue.
