#### MARC Staff:

Cy Splichal Martin Rivarola Patrick Trouba Ron Achelpohl

#### Agenda:

- 1. Welcome and Introductions
- 2. VOTE: Approve the October 30, 2024 Meeting Summary
  - a. Travis Hoover moved to approve.
  - b. Chuck Soules seconded the motion.
  - c. Motion passes.
- 3. KDOT and MoDOT updates

a. Per Allison Smith, KDOT is monitoring the dynamic federal situation and has so far proceeded as normal; all recently programmed projects are in the next STIP amendment. Per Juan Yin, MoDOT's guidance is very similar. MoDOT has another obligation goal of 120% for FY 2025; the minimum is 100%.

#### 4. 2025 Missouri Unfunded Needs (added agenda item)

a. Martin Rivarola discussed updating the Missouri Unfunded Needs list. The committee was not asked to take any action this meeting, but MARC will need the committee's help to update the list in terms of project progress, project descriptions, or any other updates. Since the committee's next meeting will be in May, and MARC is seeking to get the list approved by the Total Transportation Policy Committee in May, MARC will need to communicate with committee members via email about the list. See the attached slides for more details.

#### 5. Suballocated programming process debrief

a. Patrick Trouba let the committee through several questions about their experience with the 2024 suballocated programming process. These questions were based around both the committee process and the funding application. Committee members offered various thoughts. See the attached slides for more details.

#### 6. TAP balance review and project updates

a. Patrick Trouba reviewed each state's TAP program balance, looking at its status at the end of fiscal year 2024 and currently in fiscal year 2025. Allison Smith expressed that KDOT would like to see the Kansas balance drawn down further, with projects moving to FY 2025 if possible. Missouri sponsors met MoDOT's obligation goal in FY 2024 and MoDOT has set another goal for obligating 120% of the FY 2025 distributed funds in order to draw down the balance further.

See the attached slides for more details.

- b. Patrick Trouba asked for updates on projects scheduled to obligate in FY 2025. Additional outreach to project sponsors for status updates is needed as many sponsors do not attend ATPC meetings and the committee needs a better understanding of funds that are likely to obligate.
- 7. Meeting adjourned.

## Committee feedback needed

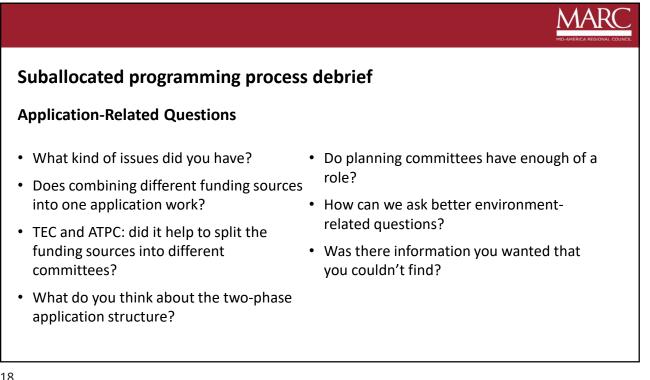

- Confirm if any projects received other funding or have advanced or stalled for any reason.
- ▶ Update project descriptions (name) if any. Updated costs?
- > Any other update needed to multimodal needs list?

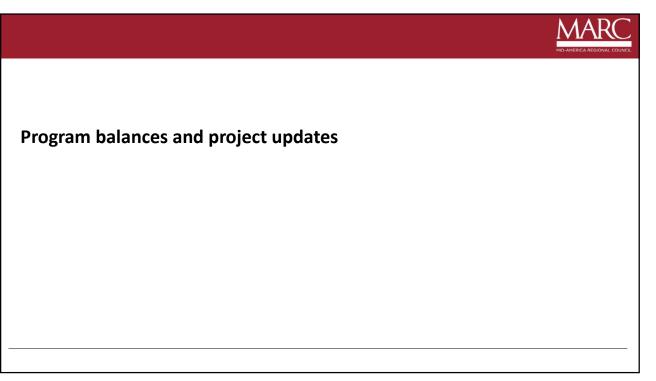

### Next Steps

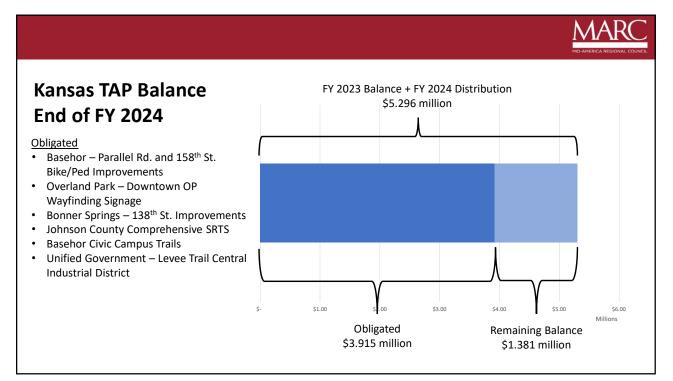

- ▶ Review & committee discussions (March & April)
- Recommend approval by TTPC and MARC Board of Directors (May)

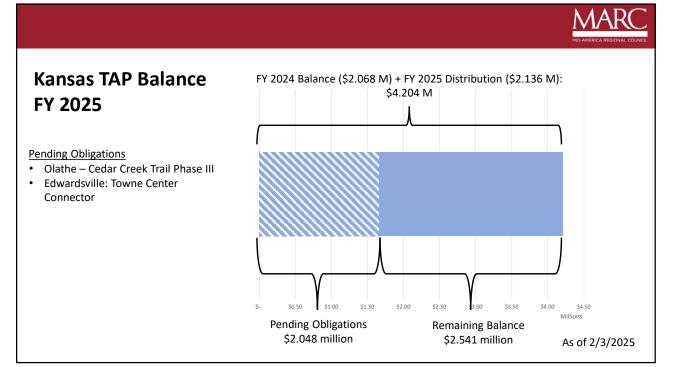

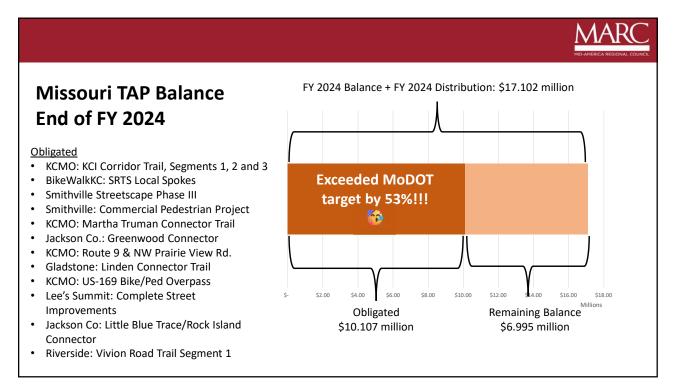

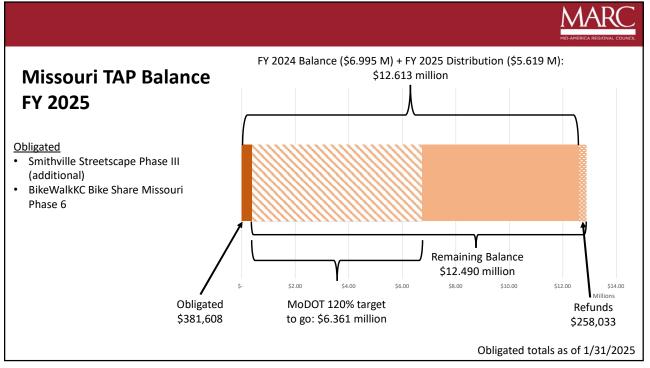

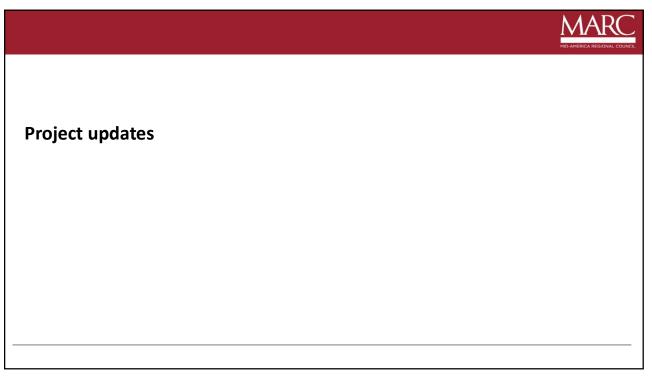

Adjournment
